① Plan Your Visit to Houston, Texas

Once your appointment has been confirmed, it is time to make travel plans and book hotel accommodation.

Hotel Information: There are three hotels that are within 5 miles.

1. Hilton Garden Inn Houston/Sugar Land (1.9 miles)
722 Bonaventure Way, Sugar Land, Texas 77479, USA
2. Houston Marriott Sugar Land (2.4 miles)
16090 City Walk, Sugar Land, TX 77479
3. Hyatt Place Houston/Sugar Land (2.8 miles)
16730 Creekbend Dr, Sugar Land, TX 77478

Airport Information: There are two primary airports serving the Houston Area

William P. Hobby Airport (31.2 miles)
7800 Airport Blvd, Houston, TX 77061

George Bush Intercontinental Airport (43.7 miles)
2800 N Terminal Rd, Houston, TX 77032

② Hotel Check-In & Getting Around

Once checked in, we suggest you explore the sights, shops, and restaurants in Town Center Sugar Land. Other nearby landmarks include: First Colony Mall, AMC Theaters, and Lifetime Fitness. For local travel, we recommend using Uber or Lyft services.

③ Daily Visits with Us

For patients with Dry Eye Disease, be prepared to spend 1-2 hours with us upon arrival. On your first visit, there will be a comprehensive evaluation, lab tests, blood work, and most treatments will occur on the same day. Subsequent treatments may be scheduled 3-4 weeks depending on the severity of disease.

For custom scleral lens patients, we will see you for 1-2 hours the first day, and short 30-minute afternoon sessions with insertion and removal trainings on subsequent visits. The final days with us will involve the fitting of the newly fabricated custom lenses.

④ Return home with your new Lenses

Dry Eye Patients: You are now on your way to comfortable healthy vision. Continue the aftercare to ensure continued progress.
Scleral Lens Patients: You will now have your custom scleral lenses to return home and enjoy your new vision. This will be your moment to get back to enjoying the world with crisp comfortable vision. Most of our patients experience 20/20 vision and restored vision with custom scleral lenses.
